1 Check appropriate boxes that best describe type of isolated, non-navigable, intra-state water present and best estimate for size of non-jurisdictional aquatic resource area.

Migratory Bird Rule Factors	If Known		If Unknown Use Best Professional Judgment		
	Yes	No	Predicted to Occur	Not Expected to Occur	Not Able to Make Determination
Is or would be used as habitat for birds protected by Migratory Bird Treaties?			X		
Is or would be used as habitat by other migratory birds that cross state lines?			X		
Is or would be used as habitat for endangered species?				X	
Is used to irrigate crops sold in interstate commerce?				X	

1 Check appropriate boxes that best describe potential for applicability of the Migratory Bird Rule to apply to onsite, non-jurisdictional, isolated, non-navigable, intra-state aquatic resource area.

ADDITIONAL INFORMATION SUPPORTING njd (e.g., paragraph 1 site conditions; paragraphs 2-3 rationale used to determine NJD, including information reviewed to assess potential navigation or interstate commerce connections; and paragraph 4 site information on waters of the U.S. occurring onsite): A wetland delineation report was received at the Waukesha office for review and concurrence. A review of the information available on the Walworth County IMS (aerial photography and topographic mapping) indicates that the wetland boundaries have been correctly identified and are adequate to establish the extent of Corps Jurisdiction.

The wetland delineation identified 3-separate wetland areas with a combined surface area of 16.33 acres at the 83 acre site. Two wetlands with a combined surface area of 9.68 acres were identified along the northwest side of the property. These wetlands are adjacent to a tributary to the White River, which is a tributary to the Fox River, a navigable water of the US and therefore are jurisdictional water bodies.

The third wetland with a surface area of approximately 6.65 acres is confined to an isolated depression that lacks a surface water connection and adjacency to the other wetlands or a water of the US. Connections between this wetland and interstate commerce was also considered but could not be identified. Therefore, this wetland is an isolated water that would not be subject to Corps Section 404 jurisdiction.
